Register: please visit www.montejade.org

Please register in advance and pay on site

Fee: Member & Student \$25, Non-Member \$30, extra \$5 for site registration

Introduction:

Current economic crisis calls for greater attention to risk management than ever before. Low consumer demand, limited access to credit, capital markets volatility, the impacts of the global recession – all of these factors can raise exposures far beyond acceptable limits if they're not thoughtfully addressed. Managing risks such as fraud, business continuity and disaster recovery, intellectual property and data protection, are especially challenging in this economic environment as companies are reducing budgets to survive. So, how should senior leaders balance risk and reward in volatile times?

On the other hand, “where there is a crisis, there is an opportunity. Starting with the colossal global stimulus packages, pent-up demand for housing and auto sales, historically low inventory levels, and thawing credit markets, the economists are predicting that the economy is set to come back at the end of this year. So, what are the opportunities?

Please come to this Monte Jade Forum to hear our distinguished panelists sharing their perspectives.

Moderator:

Dr. Larry Hsu (許中強博士), President & CEO, Impax Laboratories, Inc.

Panelists:

David J. Thelander, Director, Regulatory & Capital Markets, Risk Strategy & Regulatory, Deloitte & Touché LLP

Hing Wong (黃慶), Managing Director, Walden International

Paul Lo(羅升俊博士), Senior VP and General Manager, Analog/Mixed Signal Group, Synopsys

Moderator: Dr. Larry Hsu (許中強博士)
President and Chief Executive Officer, Impax Laboratories, Inc.
Chairman, Impax Laboratories (Taiwan), Inc.

Dr. Hsu co-founded Impax Pharmaceuticals, Inc. with Dr. Charlie Hsiao in early 1995. Impax is a drug-delivery technology based pharmaceutical company located at San Francisco Bay Area. In December 1999, Impax Pharmaceutical, Inc. went public through a reverse acquisition of Global Pharmaceuticals and changed its name to Impax Laboratories, Inc. Dr. Hsu was the President of Impax Laboratories until October 2006 when he assumed additional responsibility of Chief Executive Officer.

Dr. Hsu received his Ph.D. degree in Pharmaceutics from University of Michigan. He worked at Abbott laboratories for 15 years from 1981 to 1995. During the last four years at Abbott, Dr. Hsu was the Director of Product Development in charge of worldwide product development, process engineering, clinical lot manufacturing and production technical support of all dosage forms. Dr. Hsu received his B.S. degree in Pharmacy from National Taiwan University in 1971.

Panelist: David J. Thelander
Director, Regulatory & Capital Markets
Risk Strategy & Regulatory Deloitte & Touche LLP

With more than 20 years of financial and legal experience, David is a Director of Deloitte & Touche's Regulatory & Capital Markets consulting practice group, based on the West Coast. His recent responsibilities include: oversight of regulatory compliance, operational and technology consulting services to financial services companies (e.g. investment advisers, mutual funds, transfer agents, broker-dealers, banks, and insurance companies), and working with investment managers and hedge fund advisers to develop and enhance their compliance programs and risk management efforts. David also serves as a seasoned adviser to firms' Boards of Directors, senior management, risk advisory, internal audit, legal, and compliance professionals.

Prior to joining Deloitte & Touche, David was Vice President and counsel to Wellington Management Company, LLP, serving as head of the firm's Asia Legal Services. Prior to that, David served as a Senior Vice President of the Investment Advice and Products division of Charles Schwab & Co., Inc. and also as Senior Vice President and Chief Counsel to Schwab's International Group.

David previously served as Vice president, Principal, and General Counsel to Montgomery Asset Management, LLC, and other firms. He was also associated with the law firm of Kirkpatrick & Lockhart in the corporate and securities group in Washington, D.C., specializing in investment management and advisory matters.

In government, David served in various counsel roles with the Divisions of Corporation Finance and Enforcement, respectively, with the United States Securities and Exchange Commission in Washington, D.C. David is a frequent speaker at industry forums, both in the U.S. and internationally.

Panelist: Mr. Hing Wong (黃慶先生)
Managing Director, Walden International

Hing Wong is managing director at Walden International. His investment focus is in semiconductor, components, and clean tech, especially in Asia. Prior to the venture investment, he spent fifteen years in semiconductor industry in technical, management and business roles. He worked in IBM, Chromatic Research, and co-founded Silicon Access Networks, a network IC company where he served as VP VLSI Design and later in VP Business Development. He received PhD degree in EECS from UC Berkeley, and studied in SiChuan University and Chinese University of Hong Kong for undergraduate.

Panelist: Dr. Paul Lo(羅升俊博士)
Senior VP and General Manager,
Analog/Mixed Signal Group,
Synopsys

Mr. Lo currently is Sr. VP and GM, Analog Mixed Signal Group, in charge of products and solutions for Analog Mixed Signal IC designs at Synopsys Inc. From Nov 2002 to August 2006, Mr. Lo was VP, Engineering, Implementation Group at Synopsys Inc. in charge of IC place & route, RC Extraction and Rail Analysis products. Mr. Lo was Senior Vice President of International Strategy from June to Nov 2002, focusing on growing China and India engineering operations. Prior to the acquisition of Avant! Corporation by Synopsys, Mr. Lo was President of Avant! from July 2001 to June 2002 and Chief Operating Officer since Oct. 2000. Mr. Lo was instrumental to the success of the acquisition and integration of Avant! products and people into Synopsys. Mr. Lo has held various positions at Avant! since 1995, including Head of Engineering, Head of Asia Engineering and product development of IC place & route products. Mr. Lo also held engineering managements and engineering positions at QuickTurn Design Systems, Cadence Design Systems and Hughes Aircraft Microelectronics Center prior to joining Avant!.

Mr. Lo received Ph.D. and Master degrees of Electrical Engineering from University of Southern California and Bachelor degree of Electrical Engineering from National Taiwan University.
